Importance: High

Unclassified
Good evening,

Please see the latest update below in addition to my comments

- Planning continues to be fluid and we are seeing excellent collaboration between all police, city and NCR partners in creating viable options to mitigate issues
- A partial ESU deployment has been added to the planning component which will be held in reserve to manage any unforeseen crowd management issues
- There are increased reports of third party groups (such as anti-vax groups, far right activists) who have been inserting themselves into various convoys. This may hijack the messaging of the legitimate Truck protest. We continue to monitor and assess with our partners. Should a viable threat be identified, we will adjust our planning as appropriate

Russell

SIT REP #2 for Tuesday January 25, 2022

- PLT members have been engaged and assigned to OPP PLT teams which will be assigned to the 8 identified convoys
- Corp. Comms. have dealt with internal and external messaging and partners
- Operational Plan is still ongoing as new intelligence is being received from external partners

- Ongoing meetings with external city partners (NCC, government agencies, OAC, OFD etc)
- Estimate numbers should be available sometime tomorrow as convoys cross into Ontario
- Go Fund Me Update – at the time of this email the current amount is 4.7 million dollars, this number is expected to rise.
- Threat assessment conducted by [REDACTED] and PPS intelligence; some points of concern regarding the intelligence assessment.
 - Event likely to be bigger in crowd size than anticipated and larger than any demo in recent history, possibly on par with Canada Day Events
 - Particular significant popular support – meaning protest groups have access to larger protestor pools than they have ever had access to previously, meaning there will likely be widespread disorganization and confusion
 - [REDACTED]
- Intelligence from PPS report suggests some participants in these convoys are current serving and/or former law enforcement and military personnel who have knowledge of police tactics and equipment.
- **Staffing matters should be addressed before the need arises (IE – external response teams, PPS, OPP, other municipal services if required, should be considered)**

Respectfully,

Sgt. Louis Carvalho #1252
